

Procurement Australia adds the 360L to their pricing agreement

February 2011

The supply contract between SULO Australia and Procurement Australia has recently been expanded to include the new 360 Litre Kompakt wheelie bin. SULO has been supplying a range of MGBs and associated accessories under the Procurement Australia contract to New South Wales, Victorian and South Australian Councils for over 12 months.

Procurement Australia was established in 1985 to aggregate the buying power of local government entities in Victoria and has steadily grown into one of Australia's most innovative and successful procurement companies; a leader in the business of negotiating and facilitating contracts for local government, public sector organizations, not-for-profit groups and other commercial entities.

The expansion means that Councils purchasing under the Procurement Australia buying agreement now have the opportunity to purchase SULO's new 360 litre bin at a competitive rate.
